NDPGA has a block of sleeping rooms. The block of rooms will be held until the 6th of March. When calling the hotel ask for the ND Propane block to receive your discounted rate of \$86.40. **You are responsible for reserving and paying for your hotel room.**

Please return registration form with your check made payable to NDPGA by **March 6** to insure the availability of materials. Class registration fee is reduced to all ND attendees with a rebate from the Propane Education and Research Council. Class size is limited – first to sign up – first accommodated.

Classes begin at 8:00 a.m. with registration at 7:30 a.m. on Monday March 23.

Basic Plant Operations - CETP Book 3.1 - 3.5

The Basic Plant Operations course provides information, practices, and procedures to safely and efficiently perform bulk plant operations tasks, mainly cylinder inspection, filling and requalification, and plant and equipment maintenance.

The topics covered are:

- Main components of a bulk plant
- Propane liquid supply system
- Inspection and filling of DOT cylinders
- Inspection and filling of vehicle mounted ASME tanks
- DOT cylinders visual inspection and requalification
- Maintaining cylinders and ASME tanks
- Unloading cargo tank motor vehicles
- Bulk plant systems and equipment maintenance

Prerequisite: Basic Principles & Practices of Propane

NFPA #58 2020 edition is required for this course.
